LANGUAGES

- English (Fluent)
- Kiswahili (Native)
- Somali (Native)

SOFT SKILLS

- Analytical thinking
- Teamwork
- Effective Communication

TECH SKILLS

- Scripting in Python (Expert)
- Linux Operating sys (Expert)
- Enterprise Routing (Expert)
- Wazuh SIEM (Expert)
- OPNsense Firewall (Expert)
- Access control (Good)
- Ethical Hacking (Intermediate)
- MySQL (Good)
- Vulnerability Assessment (Good)

KHALID ABDULLAHI ALI

SECURITY ENGINEER INTERN

PROFILE

A cyber security student with a robust academic background in Networking and Cyber Security. Possessed a keen analytical mind , eager to learn and contribute to safe guarding digital assets through security solutions.

EDUCATION

- Bachelor of Science in Networking and Cyber Security** 2024 - current
School of Science | ISBAT University
on-going
- Foundation Program** 2023 - 2024
Higher Education | ISBAT University
GPA: 4.2
- Secondary School** 2019 - 2022
Mudug Secondary School
GPA: B+

PROJECTS

- SIEM & Virus-Total Detection System** APRIL 2026
Deployed a Wazuh SIEM environment and executed controlled malware samples to test detection capabilities. Developed a custom Incident Response (IR) script to automate log analysis and trigger real-time VirusTotal API threat lookups. Analyzed the resulting security alerts to build custom detection rules and refine endpoint monitoring.
Technologies Used: Wazuh, Virus total, window Agent, Python
- Secure Enterprise Routing** MAY 2026
Designed a secure enterprise network lab utilizing OSPF for dynamic routing and hardened DHCP configurations to prevent rogue network access. Integrated PGP encryption protocols to secure data-at-rest and data-in-transit across the infrastructure.
Technologies Used: OSPF, DHCP Snooping, PGP Encryption, Cisco Packet Tracer
